The Advisor Sponsored Fixed Income Composite *contains fully discretionary advisor sponsored fixed income accounts. The composite is designed to produce optimal results in all market environments, utilizing taxable securities such as U.S. Treasury government agency securities and investment grade corporate issues. Key risks of the strategy include credit risk and interest rate risk which may adversely impact the value of fixed income securities, causing the composite to underperform the benchmark. For comparison purposes, the composite is measured against the Bloomberg Capital Government/Credit Intermediate Bond Index. The minimum account size for this wrap composite is $200 thousand. The Advisor Sponsored Fixed Income Composite was created and incepted on July 1, 2002. This composite is also known as the "Advisor Sponsored Taxable Quality Intermediate Composite". The firm's full list of composite descriptions and broad distribution pooled funds are available upon request.*

RNC Capital Management LLC is a registered investment adviser under the Securities and Exchange Commission pursuant to the Investment Advisors Act of 1940, as amended, doing business as Genter Capital Management. Prior to January 2022, the firm was doing business as RNC Genter Capital Management. Beginning January 1, 2005, the firm has been redefined to include all the assets of Genter Advisors LLC.

Results are based on fully discretionary accounts under management including those accounts no longer with the firm. Composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow greater than or equal to 10% of portfolio assets. Additional Information regarding the treatment of significant cash flows is available upon request. Past performance is not indicative of future results.

The currency used to express performance is USD. Pure gross returns are shown as supplemental information and are stated gross of all fees and transaction costs. Net returns are calculated by subtracting the highest applicable wrap fee (1.50% on annual basis, or 0.125% Monthly) from the pure gross composite returns. The highest fee of 1.50% assumes an all-inclusive/Bundled/Wrap fee that includes investment management, portfolio monitoring, consulting services and in some cases, custodial services. The actual fee paid by each client will vary based on each wrap program's fee schedule. As the investment advisor, Genter Capital receives a portion of that highest fee to cover the management fee. Wrap fee schedules are provided by independent wrap sponsors and are available upon request from the respective wrap sponsor. The composite consists entirely of wrap accounts for all periods presented. Composite dispersion is measured by the asset-weighted standard deviation of annual pure gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite pure gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The standard wrap fee schedule in effect is 1.50%. Actual Investment advisory fees incurred by clients are negotiable and may vary.

Genter Capital Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Genter Capital Management has been independently verified for the periods January 1, 2001 through December 31, 2024. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.
